**1. NATURE OF OPERATIONS**

Jewett-Cameron Trading Company Ltd. was incorporated in British Columbia on July 8, 1987 as a holding company for Jewett-Cameron Lumber Corporation (“JCLC”), incorporated September 1953. Jewett-Cameron Trading Company, Ltd. acquired all the shares of JCLC through a stock-for-stock exchange on July 13, 1987, and at that time JCLC became a wholly owned subsidiary. Effective September 1, 2013, the Company reorganized certain of its subsidiaries. JCLC’s name was changed to JC USA Inc. (“JC USA”), and a new subsidiary, Jewett-Cameron Company (“JCC”), was incorporated.

JC USA has the following wholly owned subsidiaries: MSI-PRO Co. (“MSI”), incorporated April 1996, Jewett-Cameron Seed Company, (“JCSC”), incorporated October 2000, Greenwood Products, Inc. (“Greenwood”), incorporated February 2002, and Jewett-Cameron Company, incorporated September 2013. Jewett-Cameron Trading Company Ltd. and its subsidiaries (the “Company”) have no significant assets in Canada.

The Company, through its subsidiaries, operates out of facilities located in North Plains, Oregon. JCC’s business consists of the manufacturing and distribution of specialty metal products and wholesale distribution of wood products to home centers and other retailers located primarily in the United States. Greenwood is a processor and distributor of industrial wood and other specialty building products principally to customers in the marine and transportation industries in the United States. MSI is an importer and distributor of pneumatic air tools and industrial clamps in the United States. JCSC is a processor and distributor of agricultural seeds in the United States. JC USA provides professional and administrative services, including accounting and credit services, to its subsidiary companies.

These unaudited financial statements are those of the Company and its wholly owned subsidiaries. In the opinion of management, the accompanying Consolidated Financial Statements of Jewett-Cameron Trading Company Ltd., contain all adjustments, consisting only of normal recurring adjustments, necessary to fairly state its financial position as of November 30, 2015 and August 31, 2015 and its results of operations and cash flows for the three month periods ended November 30, 2015 and November 30, 2014 in accordance with U.S. GAAP. Operating results for the three month period ended November 30, 2015 are not necessarily indicative of the results that may be experienced for the fiscal year ending August 31, 2016.

**2. SIGNIFICANT ACCOUNTING POLICIES**

**Generally accepted accounting principles**

These consolidated financial statements have been prepared in conformity with generally accepted accounting principles of the United States of America.

**Principles of consolidation**

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, JC USA, JCC, MSI, JCSC, and Greenwood, all of which are incorporated under the laws of Oregon, U.S.A.

All inter-company balances and transactions have been eliminated upon consolidation.

**2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)**

**Estimates**

The preparation of consolidated financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates incorporated into the Company's consolidated financial statements include the estimated useful lives for depreciable and amortizable assets, the estimated allowances for doubtful accounts receivable and inventory obsolescence, possible product liability and possible product returns, and litigation contingencies and claims. Actual results could differ from those estimates.

**Cash and cash equivalents**

The Company considers all highly liquid instruments with maturity of three months or less at the time of issuance to be cash equivalents. At November 30, 2015, cash was \$4,360,625 compared to \$4,416,297 at August 31, 2015. At November 30, 2015 and August 31, 2015, there were no cash equivalents.

**Accounts receivable**

Trade and other accounts receivable are reported at face value less any provisions for uncollectible accounts considered necessary. Accounts receivable primarily includes trade receivables from customers. The Company estimates doubtful accounts on an item-by-item basis and includes over aged accounts as part of allowance for doubtful accounts, which are generally ones that are ninety days or greater overdue.

The Company extends credit to domestic customers and offers discounts for early payment. When extension of credit is not advisable, the Company relies on either prepayment or a letter of credit.

**Inventory**

Inventory, which consists primarily of finished goods, is recorded at the lower of cost, based on the average cost method, and market. Market is defined as net realizable value. An allowance for potential non-saleable inventory due to excess stock or obsolescence is based upon a review of inventory components.

**Property, plant and equipment**

Property, plant and equipment are recorded at cost less accumulated depreciation. The Company provides for depreciation over the estimated life of each asset on a straight-line basis over the following periods:

Office equipment	3-7 years
Warehouse equipment	2-10 years
Buildings	5-30 years

**Intangibles**

The Company's intangible assets have a finite life and are recorded at cost. The most significant intangible assets are two patents related to gate support systems. Amortization is calculated using the straight-line method over the remaining lives of 27 months and 39 months, respectively, and are reviewed annually for impairment.

**2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)**

**Asset retirement obligations**

The Company records the fair value of an asset retirement obligation as a liability in the period in which it incurs a legal obligation associated with the retirement of tangible long-lived assets that result from the acquisition, construction, development, and normal use of the long-lived assets. The Company also records a corresponding asset which is amortized over the life of the asset. Subsequent to the initial measurement of the asset retirement obligation, the obligation is adjusted at the end of each period to reflect the passage of time (accretion expense) and changes in the estimated future cash flows underlying the obligation (asset retirement cost). The Company does not have any significant asset retirement obligations.

**Impairment of long-lived assets and long-lived assets to be disposed of**

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount and the fair value less costs to sell.

**Currency and foreign exchange**

These financial statements are expressed in U.S. dollars as the Company's operations are based only in the United States.

The Company does not have non-monetary or monetary assets and liabilities that are in a currency other than the U.S. dollar. Any statement of operations transactions in a foreign currency are translated at rates that approximate those in effect at the time of translation. Gains and losses from translation of foreign currency transactions into U.S. dollars are included in current results of operations.

**Earnings per share**

Basic earnings per common share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding in the period. Diluted earnings per common share takes into consideration common shares outstanding (computed under basic earnings per share) and potentially dilutive common shares.

The earnings per share data for the three months ended November 30, 2015 and November 30, 2014 are as follows:

	2015	2014
Net income	\$ 532,245	\$ 327,787
Basic weighted average number of common shares outstanding	2,476,832	2,688,942
Effect of dilutive securities Stock options	-	-
Diluted weighted average number of common shares outstanding	2,476,832	2,688,942

(Unaudited)

**2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)**

**Comprehensive income**

The Company has no items of other comprehensive income in any year presented. Therefore, net income presented in the consolidated statements of operations equals comprehensive income.

**Stock-based compensation**

All stock-based compensation is recognized as an expense in the financial statements and such costs are measured at the fair value of the award.

No options were granted during the quarter ended November 30, 2015, and there were no options outstanding on November 30, 2015.

**Financial instruments**

The Company uses the following methods and assumptions to estimate the fair value of each class of financial instruments for which it is practicable to estimate such values:

*Cash* - the carrying amount approximates fair value because the amounts consist of cash held at a bank and cash held in short term investment accounts.

*Accounts receivable* - the carrying amounts approximate fair value due to the short-term nature and historical collectability.

*Notes receivable* - the carrying amounts approximate fair value due to the short-term nature of the amount.

*Accounts payable and accrued liabilities* - the carrying amount approximates fair value due to the short-term nature of the obligations.

The estimated fair values of the Company's financial instruments as of November 30, 2015 and August 31, 2015 follows:

	November 30, 2015		August 31, 2015	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash	\$4,360,625	\$4,360,625	\$4,416,297	\$4,416,297
Accounts receivable, net of allowance	4,319,826	4,319,826	3,688,247	3,688,247
Note receivable	360	360	1,310	1,310
Accounts payable and accrued liabilities	2,097,999	2,097,999	2,009,313	2,009,313

**2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)**

**Financial instruments (cont'd...)**

The following table presents information about the assets that are measured at fair value on a recurring basis as of November 30, 2015, and indicates the fair value hierarchy of the valuation techniques the Company utilized to determine such fair value. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets. Fair values determined by Level 2 inputs utilize data points that are observable such as quoted prices, interest rates and yield curves. Fair values determined by Level 3 inputs are unobservable data points for the asset or liability, and included situations where there is little, if any, market activity for the asset:

	<u>November 30,</u> <u>2015</u>	<u>Quoted Prices</u> <u>in Active</u> <u>Markets</u> <u>(Level 1)</u>	<u>Significant</u> <u>Other</u> <u>Observable</u> <u>Inputs</u> <u>(Level 2)</u>	<u>Significant</u> <u>Unobservable</u> <u>Inputs</u> <u>(Level 3)</u>
<b>Assets:</b>				
Cash	\$ 4,360,625	\$ 4,360,625	\$ —	\$ —

The fair values of cash are determined through market, observable and corroborated sources.

**Income taxes**

A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

**Shipping and handling costs**

The Company incurs certain expenses related to preparing, packaging and shipping its products to its customers, mainly third-party transportation fees. All costs related to these activities are included as a component of cost of goods sold in the consolidated statement of operations. All costs billed to the customer are included as revenue in the consolidated statement of operations.

**Revenue recognition**

The Company recognizes revenue from the sales of lumber, building supply products, industrial wood products, specialty metal products, and other specialty products and tools, when the products are shipped, title passes, and the ultimate collection is reasonably assured. Revenue from the Company's seed operations is generated from seed processing, handling and storage services provided to seed growers, and by the sales of seed products. Revenue from the provision of these services and products is recognized when the services have been performed, products sold and collection of the amounts is reasonably assured.

**2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)**

**Recent Accounting Pronouncements**

Management has reviewed the new accounting guidance and determined that there is not a material impact on our financial statements.

**3. INVENTORY**

A summary of inventory is as follows:

	<b>November 30, 2015</b>	<b>August 31, 2015</b>
Wood products and metal products	\$ 7,177,560	\$ 7,376,505
Industrial tools	523,097	525,667
Agricultural seed products	461,584	449,403
	<u>\$ 8,162,241</u>	<u>\$ 8,351,575</u>

**4. PROPERTY, PLANT AND EQUIPMENT**

A summary of property, plant, and equipment is as follows:

	<b>November 30, 2015</b>	<b>August 31, 2015</b>
Office equipment	\$ 593,305	\$ 591,124
Warehouse equipment	1,520,724	1,520,724
Buildings	2,878,849	2,878,849
Land	761,924	761,924
	<u>5,754,802</u>	<u>5,752,621</u>
Accumulated depreciation	<u>(3,569,901)</u>	<u>(3,520,910)</u>
Net book value	<u>\$ 2,184,901</u>	<u>\$ 2,231,711</u>

In the event that facts and circumstances indicate that the carrying amount of an asset may not be recoverable and an estimate of future discounted cash flows is less than the carrying amount of the asset, an impairment loss will be recognized. Management's estimates of revenues, operating expenses, and operating capital are subject to certain risks and uncertainties which may affect the recoverability of the Company's investments in its assets. Although management has made its best estimate of these factors based on current conditions, it is possible that changes could occur which could adversely affect management's estimate of the net cash flow expected to be generated from its operations.

**5. INTANGIBLE ASSETS**

A summary of intangible assets is as follows:

	<b>November 30, 2015</b>	<b>August 31, 2015</b>
Patent	\$ 850,000	\$ 850,000
Other	43,655	43,655
	893,655	893,655
Accumulated amortization	(688,582)	(670,405)
Net book value	\$ 205,073	\$ 223,250

**6. DEFERRED INCOME TAXES**

Deferred income tax liability as of November 30, 2015 of \$47,105 (August 31, 2015 – \$34,300) reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

**7. BANK INDEBTEDNESS**

There was no bank indebtedness under the Company's \$3,000,000 line of credit as of November 30, 2015 or August 31, 2015.

Bank indebtedness, when it exists, is secured by an assignment of accounts receivable and inventory. Interest is calculated solely on the one month LIBOR rate plus 175 basis points.

**8. CAPITAL STOCK**

**Common Stock**

Holder of common stock are entitled to one vote for each share held. There are no restrictions that limit the Company's ability to pay dividends on its common stock. The Company has not declared any dividends since incorporation.

**9. CANCELLATION OF CAPITAL STOCK**

Treasury stock may be kept based on an acceptable inventory method such as the average cost basis. Upon disposition or cancellation, the treasury stock account is credited for an amount equal to the number of shares cancelled, multiplied by the cost per share and the difference is treated as additional paid-in-capital in excess of stated value.

During the 4<sup>th</sup> quarter of fiscal 2015 ended August 31, 2015, the Company repurchased and cancelled a total of 4,778 common shares under a 10b5-1 share repurchase plan. The total cost was \$54,491 at an average price of \$11.41 per share. The premium paid to acquire these shares over their per share book value in the amount of \$52,236 was recorded as a decrease to retained earnings. In addition to the shares repurchased under the 10b5-1 repurchase plan, Donald Boone, President and CEO of the Company, voluntarily returned 15,000 common shares to treasury for cancellation. The Company paid no consideration for the shares. Capital stock was reduced by the book value of the shares in the amount of \$7,077.

During the 3<sup>rd</sup> quarter of fiscal 2015 ended May 31, 2015, the Company repurchased and cancelled a total of 89,051 common shares under a 10b5-1 share repurchase plan. The total cost was \$1,101,574 at an average price of \$12.37 per share. The premium paid to acquire these shares over their per share book value in the amount of \$1,059,554 was recorded as a decrease to retained earnings.

During the 1<sup>st</sup> quarter of fiscal 2015 ended November 30, 2014, the Company repurchased and cancelled a total of 118,969 common shares under a 10b5-1 share repurchase plan. The total cost was \$1,292,477 at an average price of \$10.86 per share. The premium paid to acquire these shares over their per share book value in the amount of \$1,236,340 was recorded as a decrease to retained earnings.

**10. STOCK OPTIONS**

The Company has a stock option program under which stock options to purchase securities from the Company can be granted to directors and employees of the Company on terms and conditions acceptable to the regulatory authorities of Canada, notably the Ontario Securities Commission and the British Columbia Securities Commission.

Under the stock option program, stock options for up to 10% of the number of issued and outstanding common shares may be granted from time to time, provided that stock options in favor of any one individual may not exceed 5% of the issued and outstanding common shares. No stock option granted under the stock option program is transferable by the optionee other than by will or the laws of descent and distribution, and each stock option is exercisable during the lifetime of the optionee only by such optionee. Generally, no option can be for a term of more than 10 years from the date of the grant.

The exercise price of all stock options, granted under the stock option program, must be at least equal to the fair market value (subject to regulated discounts) of such common shares on the date of grant. Options vest at the discretion of the Board of Directors.

The Company had no stock options outstanding as of November 30, 2015 and August 31, 2015.

**11. PENSION AND PROFIT-SHARING PLANS**

The Company has a deferred compensation 401(k) plan for all employees with at least 12 months of service pending a semi-annual enrolment time. The plan allows for a non-elective discretionary contribution based on the first \$60,000 of eligible compensation. For the quarters ended November 30, 2015 and 2014 the 401(k) compensation expense was \$39,843 and \$33,778, respectively.

## **12. CONTINGENT LIABILITIES AND COMMITMENTS**

- a) A subsidiary was a plaintiff in a lawsuit filed in Portland, Oregon, entitled, Greenwood Products, Inc. et al v. Greenwood Forest Products, Inc. et al., Case No. 05-02553 (Multnomah County Circuit Court).

During fiscal 2002 the Company entered into a purchase agreement to acquire inventory over a 15 month period with an initial estimated value of \$7,000,000 from Greenwood Forest Products, Inc. During the year ended August 31, 2003, the Company completed the final phase of the inventory acquisition. As partial consideration for the purchase of the inventory the Company issued two promissory notes, based on its understanding of the value of the inventory purchased. The Company believes it overpaid the obligation by approximately \$820,000. The holder counterclaimed for approximately \$2,400,000.

Litigation was completed on March 5, 2007, with the court's general judgment and money award. The net effect was money judgment in favor of Greenwood Forest Products, Inc. for \$242,604. The Company accrued reserves to cover the money judgment related to this dispute. Both parties filed appeals for review of the court's opinion.

During the 1st quarter of fiscal 2011, the Oregon Court of Appeals ruled that the judgment in favor of Jewett Cameron as plaintiffs should be reversed and the judgment in favor of the defendants should stand. The judgment in favor of the Company was for \$819,000 plus attorneys fees. The judgment against the plaintiffs is for \$1,187,137. The Company appealed the decision to the Oregon Supreme Court. During the 1st quarter of fiscal 2011, the Company recorded a litigation loss of \$962,137 and interest of \$391,988 in addition to the existing litigation reserve of \$225,000. Additional interest of \$48,790 was recorded during the remainder of fiscal 2011. During the 1st quarter of fiscal 2012 ended November 30, 2011, additional interest of \$16,204 was accrued.

In February 2012, the Company received the decision from the Oregon Supreme Court which was favorable to Jewett Cameron as plaintiff. As a result, the Company has reversed \$1,459,832 of the litigation reserve and accrued interest during the 2nd quarter of fiscal 2012 ended February 29, 2012. The reversal was treated as a one-time gain during the quarter.

In July 2014, upon remand from the Oregon Supreme Court, the Oregon Court of Appeals has concluded that Greenwood Forest Products, Inc. as defendants are entitled to a new trial, and, as a consequence, ruled that the judgment in favor of Jewett Cameron as plaintiffs should be reversed and the judgment in favor of defendants should stand. The judgment in favor of the Company was for \$819,000 plus attorney's fees. The judgment against plaintiffs was for \$1,187,137. On August 7, 2014, the Company filed a petition with the Oregon Supreme Court for a review of the Oregon Court of Appeals notice. The petition requests the Oregon Supreme Court review the most recent ruling by the Oregon Court of Appeals, reverse the decision, and affirm the original judgment of the trial court. In September 2015, the Oregon Supreme Court ruled on the Company's petition and has reversed the decision of the Oregon Court of Appeals and remanded the case to back to the Court of Appeals for further proceedings. The Court also denied the defendants' request for a new trial.

During the year ended August 31, 2015, the Company recorded \$26,716 of interest income due to the favorable difference in interest rates between the judgments. During the period ended November 30, 2015, the Company recorded \$6,661 of interest income.

**13. SEGMENT INFORMATION**

The Company has four principal reportable segments. These reportable segments were determined based on the nature of the products offered. Reportable segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance.

The Company evaluates performance based on several factors, of which the primary financial measure is business segment income before taxes. The following tables show the operations of the Company's reportable segments.

Following is a summary of segmented information for the three month periods ended November 30:

	<b>2015</b>	<b>2014</b>

**14. CONCENTRATIONS**

*Credit risk*

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and accounts receivable. The Company places its cash with a high quality financial institution. The Company has concentrations of credit risk with respect to accounts receivable as large amounts of its accounts receivable are concentrated geographically in the United States amongst a small number of customers. At November 30, 2015, two customers accounted for accounts receivable greater than 10% of total accounts receivable at 61%. At November 30, 2014, two customers accounted for accounts receivable greater than 10% of total accounts receivable at 55%. The Company controls credit risk through credit approvals, credit limits, credit insurance and monitoring procedures. The Company performs credit evaluations of its commercial customers but generally does not require collateral to support accounts receivable.

*Volume of business*

The Company has concentrations in the volume of purchases it conducts with its suppliers. For the three months ended November 30, 2015, there were three suppliers that each accounted for greater than 10% of total purchases, and the aggregate purchases amounted to \$5,558,778. For the three months ended November 30, 2014, there were three suppliers that each accounted for greater than 10% of total purchases, and the aggregate purchases amounted to \$5,465,620.

**15. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS**

There were no non-cash investing or financing activities during the periods presented.

## **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

These unaudited financial statements are those of the Company and its wholly owned subsidiaries. In the opinion of management, the accompanying consolidated financial statements of Jewett-Cameron Trading Company Ltd., contain all adjustments, consisting only of normal recurring adjustments, necessary to fairly state its financial position as of November 30, 2015 and August 31, 2015 and its results of operations and cash flows for the three month periods ended November 30, 2015 and November 30, 2014 in accordance with U.S. GAAP. Operating results for the three month period ended November 30, 2015 are not necessarily indicative of the results that may be experienced for the fiscal year ending August 31, 2016.

The Company's operations are classified into four reportable segments, which were determined based on the nature of the products offered along with the markets being served. The segments are as follows:

- Industrial wood products
- Lawn, garden, pet and other
- Seed processing and sales
- Industrial tools

Effective September 1, 2013, the Company reorganized certain of its subsidiaries. Jewett-Cameron Lumber Corporation (JCLC) was changed to JC USA Inc. (JC USA), which has the following four wholly-owned subsidiaries.

The industrial wood products segment reflects the business conducted by Greenwood Products, Inc. (Greenwood), Greenwood is a processor and distributor of industrial wood products. A major product category is treated plywood that is sold to boat manufacturers and the transportation industry.

The lawn, garden, pet and other segment reflects the business of the newly incorporated Jewett-Cameron Company (JCC), which is a manufacturer and distributor of specialty metal products and a wholesaler of wood products formerly conducted by JCLC. Wood products include fencing and landscape timbers, while metal products include dog kennels, proprietary gate support systems, perimeter fencing, and greenhouses. JCC uses contract manufacturers to make the specialty metal products. Some of the products that JCC distributes flow through the Company's distribution center located in North Plains, Oregon, and some are shipped direct to the customer from the manufacturer. Primary customers are home centers and other retailers.

The seed processing and sales segment reflects the business of Jewett-Cameron Seed Company (JCSC). JCSC processes and distributes agricultural seed. Most of this segment's sales come from selling seed to distributors with a lesser amount of sales derived from cleaning seed.

The industrial tools segment reflects the business of MSI-PRO (MSI). MSI imports and distributes products including pneumatic air tools, industrial clamps, and saw blades; that are primarily sold to retailers that in turn sell to contractors and end users.

### **RESULTS OF OPERATIONS**

#### **Three Months Ended November 30, 2015 and November 30, 2014**

For the three months ended November 30, 2015, sales increased \$3,958,891 to \$11,941,508 from \$7,982,617 for the three months ended November 30, 2014.

Sales at Greenwood were \$1,553,523 for the three months ended November 30, 2015 compared to sales of \$992,682 for the three months ended November 30, 2014, which was an increase of \$560,841, or 56%. Greenwood benefited from the Company's sustained efforts to obtain new customers and new uses for its products, including its customers internationally. However, overall demand for Greenwood's products continues to lag historical levels. In February 2014, the Company sold its excess inventory related to the marine industry in an arm's length transaction. The Company does not anticipate a significant marine industry recovery in the near future. Nevertheless, the Company will maintain a readiness to participate in the marine segment when, and if, the market rebounds. For the quarter, Greenwood had operating income of \$37,249 compared to income of \$18,068 in the three months ended November 30, 2014.

Sales at JCC were \$8,868,811 for the three months ended November 30, 2015 compared to sales of \$5,888,909 for the three months ended November 30, 2014, which was an increase of \$2,979,902, or 51%. The increase in sales was primarily due to the Company's efforts to obtain new business, including expanding its customer base through the addition of small and mid-sized customers, and the sales of new products introduced during the second half of the last fiscal year. Operating income for JCC was \$665,399 for the three months ended November 30, 2015, which was an increase of \$490,644 from the operating income of \$164,755 for the three months ended November 30, 2014. Overall, the operating results of JCC are seasonal with the first two quarters of the fiscal year historically being slower than the final two quarters of the fiscal year.

Sales at JCSC were \$1,221,409 for the three months ended November 30, 2015 compared to sales of \$704,894 for the three months ended November 30, 2014. This represents an increase of \$516,515, or 73%. Demand for grass seed has risen in conjunction with the improvement in residential home sales. Operating income for JCSC for the quarter was \$47,195 compared to operating income of \$89,245 for the quarter ended November 30, 2014. The ongoing drought in the Western US significantly reduced harvested yields in the calendar 2015 growing season, and the Company continues to see a decline in seed cleaning services from more growers cleaning in-house.

Sales at MSI were \$297,765 for the quarter ended November 30, 2015 compared to sales of \$396,132 for the quarter ended November 30, 2014, which was a decrease of \$98,367, or 25%. The segment has recently become more competitive, and the Company has reduced prices on certain of its products which resulted in lower operating margins. The operating loss for MSI for the three months ended November 30, 2015 was (\$29,015) compared to operating income of \$38,618 for the three months ended November 30, 2014.

Gross margin for the three month period ended November 30, 2015 was 19.9% compared to 23.4% for the three months ended November 30, 2014.

The Company's income tax expense in the current period was \$361,693 compared to \$209,007 for the three months ended November 30, 2014. Net income for the three months ended November 30, 2015 was \$532,245, or \$0.21 per basic and diluted share, compared to net income of \$327,787, or \$0.12 per basic and diluted share, for the three months ended November 30, 2014.

## **LIQUIDITY AND CAPITAL RESOURCES**

As of November 30, 2015, the Company had working capital of \$15,713,511 compared to working capital of \$15,103,474 as of August 31, 2015, an increase of \$610,037. Cash totaled \$4,360,625, a decrease of \$55,672. Accounts receivable rose to \$4,319,826 from \$3,688,247 due to the seasonal cycle of sales to customers and the related timing of cash receipts. Inventory decreased by \$189,334 and prepaid expenses, which are largely related to down payments for future inventory purchases, increased by \$333,009. Note receivable declined by \$950 as most of the remaining balance of the note was repaid during the quarter.

Accounts payable decreased by \$29,439 and accrued liabilities increased by \$118,125. Litigation reserve declined by \$6,661 as differences in interest rates resulted in a reduction in the amount reserved.

As of November 30, 2015, accounts receivable and inventory represented 70% of current assets and 62% of total assets. For the three months ended November 30, 2015, the accounts receivable collection period, or DSO, was 33 days compared to 31 days for the three months ended November 30, 2014. Inventory turnover to the three months ended November 30, 2015 was 79 days compared to 148 days for the three months ended November 30, 2014.

External sources of liquidity include a line of credit from U.S. Bank of \$3,000,000. As of November 30, 2015, the Company had no borrowing balance leaving the entire amount available. Borrowing under the line of credit is secured by an assignment of accounts receivable and inventory. The interest rate is calculated solely on the one month LIBOR rate plus 175 basis points. As of November 30, 2015 the one month LIBOR rate plus 175 basis points was 1.96% (0.21% + 1.75%). The line of credit has certain financial covenants. The Company is in compliance with these covenants.

The Company has been utilizing its cash position by repurchasing common shares under formal repurchase plans in order to increase shareholder value. During the fiscal years ended August 31, 2015 and 2014, the Company has repurchased common shares through share repurchase plans approved by the Board of Directors in accordance with Rule 10b-18 under the U.S. Securities Exchange Act of 1934.

On January 13, 2014, the Company announced the Board of Directors had authorized a share repurchase plan to purchase for cancellation up to 313,493 common shares through the facilities of the NASDAQ Stock Market ("NASDAQ"). Transactions may involve Jewett-Cameron insiders or their affiliates executed in compliance with Jewett-Cameron's Insider Trading Policy. The share repurchase plan will be effected in accordance with Rule 10b-18 under the U.S. Securities Exchange Act of 1934, which contains restrictions on the number of shares that may be purchased on a single day, subject to certain exceptions for block purchases, based on the average daily trading volumes ("ADTV") of Jewett-Cameron's shares on NASDAQ. Purchases shall be limited to one "Block" purchase per week in lieu of the 25% of ADTV limitation for compliance with Rule 10b-18(b)(4). A "block" as defined under Rule 10b-18(a)(5) means a quantity of stock that, among other things, is at least 5,000 shares and has a purchase price of at least US\$50,000. The share repurchase plan commenced on January 20, 2014 and terminated on March 24, 2014. A total of 313,493 common shares were repurchased under this plan. The total cost of the shares acquired was \$3,055,591 at an average price of \$9.75 per share.

On April 9, 2014, the Company announced the Board of Directors had authorized a share repurchase plan to purchase for cancellation up to 300,000 common shares through the facilities of NASDAQ under similar terms as the January 13, 2014 repurchase plan. This share repurchase plan commenced on April 14, 2014 and terminated on November 14, 2014. Under the Plan, the Company repurchased a total of 235,782 common shares at a cost of \$2,494,654 which is an average price of \$10.58 per share.

On February 11, 2015, the Company announced the Board of Directors had authorized a new share repurchase plan to purchase for cancellation up to 300,000 common shares through the facilities of NASDAQ under similar terms to the January 13, 2014 repurchase plan. The plan commenced on February 17, 2015 and was terminated by the Board on July 17, 2015. Under the Plan, the Company repurchased a total of 93,829 common shares at a cost of \$1,156,066 which is an average price of \$12.32.

In addition to the Rule 10b-18 share repurchases, Donald M. Boone, CEO, President and Director, voluntarily returned 15,000 common shares to the Company's treasury for cancellation in August 2015. The Company paid no consideration for these shares.

## **Business Risks**

This quarterly report includes "forward-looking statements" as that term is defined in Section 21E of the Securities Exchange Act of 1934. Forward-looking statements can be identified by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "estimates," "anticipates," or "hopeful," or the negative of those terms or other comparable terminology, or by discussions of strategy, plans or intentions. For example, this section contains numerous forward-looking statements. All forward-looking statements in this report are made based on management's current expectations and estimates, which involve risks and uncertainties, including those described in the following paragraphs.

### **Risks Related to Our Common Stock**

***We may decide to acquire assets or enter into business combinations, which could be paid for, either wholly or partially with our common stock and if we decide to do this our current shareholders would experience dilution in their percentage of ownership.***

Our Articles of Incorporation give our Board of Directors the right to enter into any contract without the approval of our shareholders. Therefore, our management could decide to make an investment (buy shares, loan money, etc.) without shareholder approval. If we acquire an asset or enter into a business combination, this could include exchanging a large amount of our common stock, which could dilute the ownership interest of present stockholders.

***Future stock distributions could be structured in such a way as to be 1) diluting to our current shareholders or 2) could cause a change in control to new investors.***

If we raise additional funds by selling more of our stock, the new stock may have rights, preferences or privileges senior to those of the rights of our existing stock. If common stock is issued in return for additional funds, the price per share could be lower than that paid by our current stockholders. The result of this would be a lessening of each present stockholder's relative percentage interest in our company.

Our shareholders could experience significant dilution if we issue our authorized 10,000,000 preferred shares.

The Company's common shares currently trade within the NASDAQ Capital Market in the United States. The average daily trading volume of our common stock on NASDAQ was 1,306 shares for the three months ended November 30, 2015. With this limited trading volume, investors could find it difficult to purchase or sell our common stock.

### **Risks Related to Our Business**

#### ***We could experience a decrease in the demand for our products resulting in lower sales volumes.***

In the past we have at times experienced decreasing products sales with certain customers. The reasons for this can be generally attributed to: increased competition; general economic conditions; demand for products; and consumer interest rates. If economic conditions deteriorate or if consumer preferences change, we could experience a significant decrease in profitability.

#### ***If our top customers were lost, we could experience lower sales volumes.***

For the three months ended November 30, 2015, our top ten customers represented 81% of our total sales. We would experience a significant decrease in sales and profitability and would have to cut back our operations, if these customers were lost and could not be replaced. Our top ten customers are in the U.S., Canada and Mexico and are primarily in the retail home improvement industry.

#### ***We could experience delays in the delivery of our products to our customers causing us to lose business.***

We purchase our products from other vendors and a delay in shipment from these vendors to us could cause significant delays in our delivery to our customers. This could result in a decrease in sales orders to us and we would experience a loss in profitability.

#### ***We could lose our credit agreement and could result in our not being able to pay our creditors.***

We have a line of credit with U.S. Bank in the amount of \$3,000,000, of which \$3,000,000 is available. We are currently in compliance with the requirements of our existing line of credit. If we lost this credit it could become impossible to pay some of our creditors on a timely basis.

#### ***If we fail to maintain an effective system of internal controls, we may not be able to detect fraud or report our financial results accurately, which could harm our business and we could be subject to regulatory scrutiny.***

We have completed a management assessment of internal controls as prescribed by Section 404 of the Sarbanes-Oxley Act, which we were required to do in connection with our year ended August 31, 2015. Based on this process we did not identify any material weaknesses. Although we believe our internal controls are operating effectively, we cannot guarantee that in the future we will not identify any material weaknesses in connection with this ongoing process.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

#### **Interest Rate Risk**

The Company does not have any derivative financial instruments as of November 30, 2015. However, the Company is exposed to interest rate risk.

The Company's interest income and expense are most sensitive to changes in the general level of U.S. interest rates. In this regard, changes in U.S. interest rates affect the interest earned on the Company's cash as well as interest paid on debt.

The Company has a line of credit whose interest rate may fluctuate over time based on economic changes in the environment. The Company is subject to interest rate risk and could be subject to increased interest payments if market interest rates fluctuate. The Company does not expect any change in the interest rates to have a material adverse effect on the Company's results from operations.

## **Foreign Currency Risk**

The Company operates primarily in the United States. However, a relatively small amount of business is conducted in currencies other than U.S. dollars. Also, to the extent that the Company uses contract manufacturers in China, currency exchange rates can influence the Company's purchasing costs.

## **Item 4. Controls and Procedures**

### ***Disclosure Controls and Procedures***

Management of the Company, including the Company's Principal Executive and Financial Officer, have evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"). Based on that evaluation, our Principal Executive and Financial Officer has concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to our management, including our Chief Executive Officer and our Principal Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

### ***Changes in Internal Control Over Financial Reporting***

There were no changes in the Company's internal control over financial reporting that occurred during the Company's most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## **Part II – OTHER INFORMATION**

### **Item 1. Legal Proceedings**

- a) A subsidiary was a plaintiff in a lawsuit filed in Portland, Oregon, entitled, Greenwood Products, Inc. et al v. Greenwood Forest Products, Inc. et al., Case No. 05-02553 (Multnomah County Circuit Court).

During fiscal 2002 the Company entered into a purchase agreement to acquire inventory over a 15 month period with an initial estimated value of \$7,000,000 from Greenwood Forest Products, Inc. During the year ended August 31, 2003, the Company completed the final phase of the inventory acquisition. As partial consideration for the purchase of the inventory the Company issued two promissory notes, based on its understanding of the value of the inventory purchased. The Company believes it overpaid the obligation by approximately \$820,000. The holder counterclaimed for approximately \$2,400,000.

Litigation was completed on March 5, 2007, with the court's general judgment and money award. The net effect was money judgment in favor of Greenwood Forest Products, Inc. for \$242,604 and an award of contested intellectual property rights of the Company. The Company accrued reserves to cover the money judgment related to this dispute. Both parties filed appeals for review of the court's opinion.

During the 1st quarter of fiscal 2011, the Oregon Court of Appeals ruled that the judgment in favor of Jewett Cameron as plaintiffs should be reversed and the judgment in favor of the defendants should stand. The judgment in favor of the Company was for \$819,000 plus attorney's fees. The judgment against the plaintiffs was for \$1,187,137. The Company appealed the decision to the Oregon Supreme Court. During the 1st quarter of fiscal 2011, the Company recorded a litigation loss of \$962,137 and interest of \$391,988 in addition to the existing litigation reserve of \$225,000. Additional interest of \$48,790 was recorded during the remainder of fiscal 2011. During the 1st quarter of fiscal 2012 ended November 30, 2011, additional interest of \$16,204 was accrued.

In February 2012, the Company received the decision from the Oregon Supreme Court which was favorable to Jewett Cameron as plaintiff. As a result, the Company has reversed \$1,459,832 of the litigation reserve and accrued interest during the 2nd quarter of fiscal 2012 ended February 29, 2012. The reversal was treated as a one-time gain during the quarter.

In July 2014, upon remand from the Oregon Supreme Court, the Oregon Court of Appeals has concluded that Greenwood Forest Products, Inc. as defendants are entitled to a new trial, and, as a consequence, ruled that the judgment in favor of Jewett Cameron as plaintiffs should be reversed and the judgment in favor of defendants should stand. The judgment in favor of the Company was for \$819,000 plus attorney's fees. The judgment against plaintiffs was for \$1,187,137. On August 7, 2014, the Company filed a petition with the Oregon Supreme Court for a review of the Oregon Court of Appeals notice. The petition requests the Oregon Supreme Court review the most recent ruling by the Oregon Court of Appeals, reverse the decision, and affirm the original judgment of the trial court. In September 2015, the Oregon Supreme Court ruled on the Company's petition and has reversed the decision of the Oregon Court of Appeals and remanded the case to back to the Court of Appeals for further proceedings. The Court also denied the defendants' request for a new trial.

During the year ended August 31, 2015, the Company recorded \$26,716 of interest income due to the favorable difference in interest rates between the judgments. During the period ended November 30, 2015, the Company recorded \$6,661 of interest income.

The Company does not know of any other material, active or pending legal proceedings against them; nor is the Company involved as a plaintiff in any other material proceeding or pending litigation. The Company knows of no other active or pending proceedings against anyone that might materially adversely affect an interest of the Company.
